EMMANUEL OJETUNDE

(506) 607-4304 | Em919177@dal.ca | Halifax, NS

I am a second-year Computer Science student with hands-on experience in application and web development using Java, Python, JavaScript, and React. Strong foundation in object-oriented programming, debugging, API integration, and database fundamentals. I am motivated to contribute to collaborative development teams and continue growing technical expertise.

EDUCATION

Bachelor of Computer Science | Dalhousie University
2024 – Present

Relevant Coursework:

- SQL & Database Systems (In Progress)
- Software Development (In Progress)
- Web Programming Fundamentals
- Data Analysis

Saint Malachy's Memorial High School
2020 – 2024

- Honor Student
- Co-op Student (2024): Used Excel and introductory SQL to organize and review data

EXPERIENCE

Housekeeping | Best Western Plus | Saint John, NB

2022 – 2025

- Worked efficiently in a fast-paced environment while meeting strict quality standards.
- Followed documented procedures and checklists to ensure consistent results.
- Demonstrated reliability, time management, and attention to detail.

Event Coordinator | Elegance by Bridget | Saint John, NB

2020 – 2024

- Solved operational issues through clear communication and structured problem-solving.
- Managed changing requirements while delivering successful outcomes.

Media Team Member (Volunteer)| RCCG Pavilion of Redemption | Saint John, NB

2020 – Present

- Operated and troubleshot cameras, audio, and visual equipment during live events.
- Diagnosed and resolved technical issues under time pressure.
- Collaborated with team members to ensure reliable system performance.

CERTIFICATIONS

CISCO Networking Academy (2025)

- Introduction to Internet of Things (IoT)
- Introduction to Data Science
- Computer Hardware Basics
- Digital Transformation
- Introduction to Modern AI

PROJECTS

Flashcard Generator (Python, PDFs, Structured Data) - *Ongoing*

- Designed and built an application that extracts text from PDFs and converts it into structured flashcards
- Implemented text cleaning, chunking, and data processing pipelines
- Improved accuracy and formatting for automated learning tools

Weather Web Application (JavaScript, APIs)

- Built responsive site using HTML, CSS, JavaScript
- Integrated external weather API
- Focused on layout clarity and user experience

Personal Portfolio Website (HTML, CSS, JavaScript)

- Designed and built a responsive personal website
- Showcases projects, technical skills, and professional profile

Java Coursework Projects

- Implemented object-oriented Java programs and debugged logic errors as part of structured coursework

TECHNICAL SKILLS

Programming Languages

- Java, C, JavaScript, HTML, SQL, Python

Development Tools

- Visual Studio Code
- Git (basic)
- Microsoft Excel, Word

Core Concepts

- Debugging & testing
- Web applications
- Software development lifecycle
- Problem solving
- Technical documentation
